DQ COLLECTION

Specification	Detail
OEKO-TEX STANDARD 100 listing	Listed; certificate details to be confirmed if required for the project
Fabric suitability for moist conditions	No

Options to discuss

• Choose a colour/reference from the material options below.

• Request the material as part of a complete blind or discuss a compatible replacement/supply-only requirement.

Before you order

• Fabric dimensions and performance must be checked with the selected blind system; material width is not the maximum finished-blind width.

• Opaque fabric does not seal light gaps around the fitted blind. Confirm the required level of room darkening before order.

Colour choices

Bark, Castle Rock, Frost, Mist, Sand, Twill, White

Colour images are a guide. Ask about physical samples and confirm the selected reference, width and format before ordering.
