DQ COLLECTION

RECESSED BLIND BOXES

Blindspace S100 × 100 Box

Product reference: Blindspace S100 × 100 Box

A recessed blind enclosure with no-flange, single-flange or double-flange options, designed around compatible roller or free-hanging cellular blinds.

- A recessed head detail for suitable blinds
- Three flange configurations
- Access through the removable cover

Key specifications

Profile family	S100 × 100
S100x100NN	No flanges
S100x100NS	Single reversible skim-coat flange
S100x100SS	Skim-coat flanges on both sides
Published maximum profile length	3000 mm; suitable runs may be joined with splice pins and plates
Intended blind types	Compatible manual or motorised rollers and free-hanging cellular systems

Options to discuss

- No flange, one flange or two flanges
- Compatible profile joining components
- Blind, brackets and cable route coordinated with construction

Before you order

- The selected blind and its rolled or stacked fabric must fit the enclosure.
- The cover must remain accessible after plastering and decoration.
