| Specification | Detail |
|---|---|
| **OEKO-TEX STANDARD 100 listing** | Listed; certificate details to be confirmed if required for the project |
| **Fabric suitability for moist conditions** | Yes |

## Options to discuss

• Choose a colour/reference from the material options below.

• Request the material as part of a complete blind or discuss a compatible replacement/supply-only requirement.

## Before you order

• Fabric dimensions and performance must be checked with the selected blind system; material width is not the maximum finished-blind width.

• Opaque fabric does not seal light gaps around the fitted blind. Confirm the required level of room darkening before order.

• Any fire classification relates to the specified material and test conditions. Confirm the current evidence required for the project.

## Colour choices

Chanterelle, Mist, Pearl, Sand, Sesame, Shell, White, Cream

Colour images are a guide. Ask about physical samples and confirm the selected reference, width and format before ordering.
