CASSETTE BLACKOUT BLINDS

Chain Cassette Roller Blind

Product reference: Chain Cassette Roller Blind

A chain-operated roller enclosed by a cassette and side channels, with coordinated white or black hardware and a choice of suitable fabrics.

- Enclosed roller and coordinated side channels
- Manual adjustment from a fixed control position
- White or black hardware throughout

Key specifications

Operation	Chain control
Published width	300-2400 mm
Maximum drop	2700 mm
Hardware	Matching white or black
Installation	Recess or face-fix configuration

Options to discuss

- Small or medium cassette as appropriate
- Alternative control-chain finishes
- Suitable blackout or other roller fabrics

Before you order

- Whole-room blackout is not established by the fabric specification alone.
- Clearance and safety-device fixing need to be confirmed at the window.
