PLEATED & CELLULAR BLINDS

Multi-zone Pleated Blind

Product reference: Multi-zone Pleated Blind

A tensioned pleated arrangement with movable upper and lower bars, allowing the covered area to be positioned within a suitable window.

- Position the covered zone within the window
- Guided fabric and moving bars
- Useful for partial-window screening

Key specifications

Configuration	Tensioned multi-zone pleated arrangement
Operation	Manual moving-bar handles
Hardware colours	White, anthracite or black
Final size and fabric	Confirmed for the multi-zone configuration before order

Options to discuss

- Suitable pleated or cellular fabric subject to confirmation
- Coordinated hardware finish
- Control-access assessment

Before you order

- Do not apply another pleated model’s size limits to this arrangement.
- The cloth and coverage position determine the actual privacy effect.
