DQ COLLECTION

CELLULAR & MICRO FABRICS

Solstice ASC Micro Fabric

Product reference: Solstice ASC Micro

An INTU Micro fabric range offered in Lily, Pewter and Anthracite for compatible compact blind systems.

- INTU Micro material; performance confirmed by selection
- Named colours and product references for a precise enquiry
- Product-specific material details and care considerations

Key specifications

Material / light effect	INTU Micro material; performance confirmed by selection
Compatible material selection	INTU Micro; frame and system compatibility assessed before order
Listed colours	Lily, Pewter, Anthracite
Technical requirements	Fibre composition and any required light, fire or solar classification confirmed for the selected specification

Options to discuss

- Choose a colour/reference from the material options below.
- Request the material as part of a complete blind or discuss a compatible replacement/supply-only requirement.

Before you order

- Fabric dimensions and performance must be checked with the selected blind system; material width is not the maximum finished-blind width.
- For the INTU Micro system only unless a different use is specifically confirmed. No independent fire or thermal performance is implied by the fabric name.

Colour choices

Lily, Pewter, Anthracite

Colour images are a guide. Ask about physical samples and confirm the selected reference, width and format before ordering.
