ROLLER BLINDS

Heavy-duty Crank Roller Blind

Product reference: Heavy-duty Crank Roller Blind

A magnetic-crank roller arrangement for suitable larger blinds, including a 45 mm system. Ask AdamsBlinds to assess the dimensions and fabric.

- A manual option for larger openings
- Magnetic handle connection
- Two published technical configurations

Key specifications

38 mm technical configuration	Width 300-2400 mm; drop 300-2400 mm
45 mm technical configuration	Width 300-3450 mm; drop 300-3450 mm
Control	Heavy-duty magnetic crank arrangement
Configuration check	Tube, cloth and crank combination confirmed in the quotation

Options to discuss

- Compatible fabric and bottom-bar finish
- Handle length and control position
- Fascia and guiding options where suitable

Before you order

- The main overview illustrates the 45 mm magnetic system; 38 mm availability needs confirmation.
- The fixing structure must support the complete blind and operating loads.
