VERTICAL BLINDS

Vertical blinds are versatile, easy to maintain and offer light control at your fingertips. You can open, close or angle the blinds as required depending on the light coming into your room.

With over 330 fabrics to choose from, our selection of plains, textures and patterns have something for everyone.

Our Vertical blinds come with a wide range of performance features making them suitable for most rooms, with blackout, flame retardant and moisture resistance available.

KEEPING WITH THE CLASSICS

Plain fabrics are a classic choice to pair with any decor style.

Our Palette FR and Banlight Duo FR fabric ranges are available for both Roller or Vertical Blinds.

Both ranges are also flame retardant giving you peace of mind in your home.

Recycled Fabrics

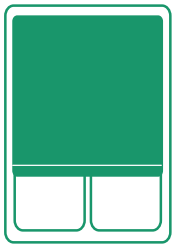

Our recycled fabrics have been developed using recycled yarn that has been derived from post-consumer plastic PET bottles.

60% of the roller fabrics & 63% of the vertical fabrics in this collection are made from 50% or more recycled polyester content.

Here's how bottles are turned....

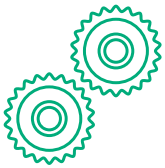

into blinds...

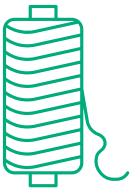

PET Polyester bottles are sorted.

The bottles are ground down.

Plastic granules are made into yarn.

This yarn is then woven into fabric.

Why have we chosen PET?

~ Repurposes waste

~ Reduces energy and water consumption

~ Reduces carbon footprint

~ PET yarn is versatile, giving a high value product

Less water

Less energy

Fewer emissions

Look out for the recycled logo across our fabrics. All of these fabrics are made from recycled polyester yarn.
