senses®

CHILD SAFE PRODUCT

senses®

Combining the most desirable aesthetic features with sleek and innovative design

Senses is a contemporary, stylish system designed to beautifully complement any traditional or modern interior, making it the superior system choice for any window covering.

Complete your look with one of our striking finishes:

Choose from our range of headrail colours to personalise your blind, available in: White, Cream, Silver, Anthracite and Black.

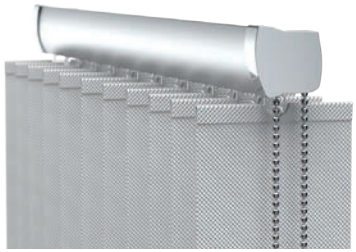

Complete your look with our contemporary endcaps, available in: White, Cream, Chrome, Anthracite and Black Chrome.

Choose your control option:

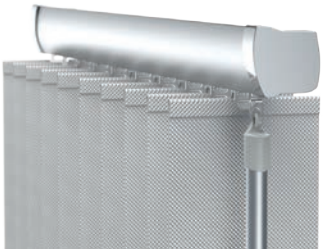

Chain operated

Open and close your blind and tilt your vanes with a chain control option. A wide selection of corresponding child safety components are also available.

Wand operated

Our wand control allows to open and close your blind and tilt your vanes with a co-ordinating wand option. This option is child safe by design, removing any hanging cords or chains giving you complete peace of mind.

Recycled Fabrics

Our recycled fabrics have been developed using recycled yarn that has been derived from post-consumer plastic PET bottles. 63% of the vertical fabrics in this collection are made from 50% or more recycled polyester content.

Here's how bottles are turned....

into blinds...

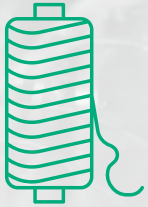

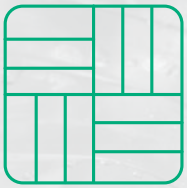

PET Polyester bottles are sorted.

The bottles are ground down.

Plastic granules are made into yarn.

This yarn is then woven into fabric.

Why have we chosen PET?

~ Repurposes waste
~ Reduces energy and water consumption
~ Reduces carbon footprint
~ PET yarn is versatile, giving a high value product

Less water

Less energy

Fewer emissions

Look out for the recycled logo across our fabrics. All of these fabrics are made from recycled polyester yarn.
