Classic Lite Pod

A motorised louvred pergola in six set sizes, with optional side screens, lighting and heating.

Product shown in an example setting. Colours and options vary with the specification.

Classic Lite offers the adjustable roof of a louvred pergola in a choice of set dimensions. The aluminium blades rotate to change the balance of shade and ventilation, then close together to shed rain into the integrated drainage system. It is a useful starting point when one of the published sizes fits your terrace layout.

Suitable projects

- A patio that suits a set-size structure
- Outdoor dining and seating areas
- A straightforward introduction to motorised louvred roofs

Specification at a glance

Roof movement	Rotation up to 150°

Layouts	Freestanding or wall-mounted
Screen position	Below the cross beams
Control	Motorised, with radio remote

Product summary for planning. Final specification and installation requirements are confirmed in your quotation; follow the instructions supplied with your order.

Classic Lite Pod

Options, practical details and the next step

Choose your options

- Motorised side screens fitted beneath the beams
- LED lighting within selected roof louvres
- Infra-red heaters
- Remote control and compatible optional app equipment

Before you order

- Set sizes must suit the available footprint; choose Classic for bespoke dimensions.
- Foundations, drainage and the electrical supply are separate design considerations.
- Closed louvres shed rain, but open sides do not create a sealed indoor room.

Choose the footprint around the furniture

Set sizes make comparison easier, but the important measurement is the space you can use between the posts. Allow for chairs being pulled back, access around a dining table and any doors that open towards the structure.

Adjust shade without taking the roof away

The roof blades tilt to let in more daylight or give protection from direct sun. They do not slide back as a complete roof. If opening the space fully to the sky is your priority, compare the Prestige Pod.

Common questions

Are these dimensions fully bespoke?

Classic Lite uses six published set-size configurations. If the footprint needs to be tailored, the Classic or Deluxe range may be more appropriate.

How many sizes are available?

The current product table lists six, from 3.00 × 3.00 m to 5.94 × 4.50 m, all with a published height of 2.50 m. We confirm the selected configuration when quoting.

Request your quotation. Send your postcode, approximate dimensions and photographs. AdamsBlinds will discuss the specification, supply-only options or a survey and installation proposal. The final size, fabric, colour, controls, installation requirements and lead time are confirmed in your written quotation.
