HEXACELL COLLECTION

CONTROLS & ACCESSORIES

Hexacell RAEX Remote Controls

Product reference: RAEX Remote Controls

Handset and wall-control options for compatible RAEX-equipped Hexacell Zebra blinds. Confirm the motor and channel requirements before order.

- Handheld and wall-mounted options
- Several channel counts
- Individual or grouped operation in a compatible setup

Key specifications

RX2 handset	YR2188B; two channels
RX6 handset	YR2118B; six channels
RX20 handset	YR2119; twenty channels
RX8 wall control	CY3308; eight channels
Compatibility	Selected RAEX-equipped motorised Zebra systems; confirm the exact motor

Options to discuss

- RX2 two-channel handset
- RX6 six-channel handset
- RX20 twenty-channel handset
- RX8 eight-channel wall control

Before you order

- These are not universal controls for every Hexacell motor.
- Channel assignment and grouping depend on the installed system.
- Confirm the motor reference before ordering a replacement.

Give each control a clear job

A single room may only need a few channels, while a larger project benefits from a planned naming and grouping scheme. We can include the agreed grouping in the quotation so the controls remain understandable after fitting.

Check compatibility before pairing

Not every rechargeable or smart motor uses the same radio system. Confirm whether the blind is RAEX-equipped and whether it uses the intended radio, Zigbee or other arrangement. We supply a matched control rather than assuming that a similar handset will pair.
