choosing your fabric

DESIGNER STYLE TIP

Whatever your style, our collection has something for you. Whether you know exactly what you want or need some help, here are some tips to consider when choosing your new window shading.

your room

Consider where and how you plan to use your blinds. Will they allow light in or block it out? Privacy and sleep might also play a key role in your decision. Think about the function of the room, as this will help guide your choice.

your fabric

Once you've decided on the use of your blinds, you can choose from our range of fabrics, including blackouts, sheers, moisture-resistant, recycled, plains, textures and patterns.

your colour

Choose colours that complement the existing finishes and materials in the room. For redecorating, create a mood board with interior images, furniture, paint swatches, fabric samples, and flooring.

WINDOW BLINDS

vertical

The combination of lush fabrics with our sleek Slimline Vogue® headrail transforms this traditional blind into a sophisticated shading solution.

Windsor Vine

Our made to measure Vertical blinds can be drawn neatly to the side to offer you unlimited views, or the louvres can be rotated to allow just the right amount of light into the room to maintain an element of privacy.

Wide windows or narrow, the versatility of vertical blinds make them an ideal shading solution for any window.

Create something special with a sophisticated, lustrous jacquard or an eye-catching print or keep things simple at the window for a minimalist interior with our neutral textures and recycled content plains.

WINDOW BLINDS

vision

Our stylish, modern window shade makes a stunning impression both inside and outside your home.

Vision® blinds feature two layers of fabric in alternating stripes of translucent and opaque.

The back fabric moves independently of the front layer allowing the stripes to glide past each other creating an open and closed effect. This allows you to control the levels of light and privacy to suit your needs.

A wow blind needs stunning fabric and our Vision® collection offers just that.

Natural and sumptuous tonal textures, subtle metallic shimmers and blackout options, make these blinds perfect for any room in the home.

Please note: Blackout fabric does not create a fully blackout blind, there will be lightstrike at the edge of the blind between the fabric vanes.

WINDOW BLINDS

cellular & pleated

With their unique shape and functional design, our chic Cellular and Pleated blinds effortlessly handle the unpredictable temperatures of the UK.

cellular

A sophisticated and pretty hued collection that ranges from blackouts, that offer enhanced privacy, through to light filtering fabrics that give your room a soft glow.

Incredibly efficient, cellular blinds not only look great but also help keep energy costs down. Their unique honeycomb structure creates a thermal barrier between the room and window to provide additional insulation.

Cellular blinds are even more thermally effective when paired with Perfect Fit®.

A concertina-like aesthetic, pleated blinds are creatively designed to shade both standard and irregular shaped windows.

Selected pleated fabrics feature innovative solar reflectancy which helps to control the temperature of your room all year round.

AWARD WINNING

Stylish Perfect Fit® blinds are a fantastic choice for most windows and doors, and they're so easy to fit with no holes drilled into your window frames.

Perfect Fit Roller

Louvolite Perfect Fit® is unique because the window blind fits neatly into a stylish frame which moves together with the windows and doors when they are opened and closed, giving you the perfect combination of shade and ventilation.

CLICK TO FIT, NO DRILLING

the benefits

Contoured frame profile gives a sleek, contemporary look.

Perfectly matched to white PVC window frames, the new matt white finish offers a more harmonious look.

New, no screw corners for a quicker, smoother setup, saving you time and effort.

Longer fabric drop is achieved in newly designed Perfect Fit roller blind fascia.

Opaque end cap covers eliminate any halo effect by blocking light transmission.

Mitred end caps provide a stylish finish.
