Clarity Security clear window film

A clear safety and security film option intended to help hold broken glass fragments together, with the system assessed for your glazing.

Security-film application example. The photograph does not identify a specific film grade or tested rating.

At a glance

- Clear appearance
- Designed to help retain broken glass fragments
- Assessed around the existing pane and project brief

Selected specification

Appearance	Clear
Main purpose	Help retain glass fragments following breakage
Assessment	Film, glazing and proposed installation considered together
Technical evidence	Relevant supporting information checked for specified performance

Selection summary, not a technical data sheet or test certificate. The selected product and supporting information are confirmed for your project.

Planning your project

Clarity Security clear window film

Explain the risk before choosing the film

Tell us where the glass is fitted and why you are considering a safety film. Include the size of each pane, whether it is in a door or fixed screen, and any known glass specification. For managed buildings, share the relevant brief or assessment so the proposed work addresses the right concern.

Evidence belongs with the specification

If your project calls for a named test standard, give us that requirement at enquiry stage. We can check the available evidence for the proposed film and glazing arrangement before confirming a quotation. We do not assume that a general safety-film description establishes performance for every window.

Before you order

Film does not prevent all breakage or make a window burglarproof.

No particular impact class or compliance outcome is promised without supporting evidence for the specified arrangement.

Blast protection requires a separate specialist assessment.

Measuring, supply and professional fitting

AdamsBlinds offers measuring within your project, made-to-measure film supply and professional installation. Supply-only enquiries are welcome. We confirm the film, dimensions, glazing compatibility and scope before you order.

Start with your windows

Send your pane count, approximate sizes, postcode and clear photographs, plus any glazing information. Tell us the main outcome you want. Initial estimates by email or WhatsApp are free.
