PRODUCT SELECTION / VENETIAN BLINDS

American Basswood Venetian Blinds

American basswood Venetians with painted or stained finishes and several slat proportions.

Product illustration. The agreed specification and finish determine the supplied product.

American Basswood offers a separate timber route within the collection. The slats are made from American basswood and can be finished in paint or stain, giving a choice between a more even colour and a finish that keeps the wood character visible. Multiple slat proportions allow the design to respond to the window.

The range supports several decorative and functional details, including valance profiles, tapes and selected edge treatments. These should be chosen with the complete blind in mind: a deep valance and wide tape can create a very different appearance from a simple finish with ladder cords.

- A choice of timber finishes
- Several slat proportions
- Decorative and functional detailing

At a glance

Material	American basswood
Format	Nominal 35mm, 50mm or 63.5mm options; confirmed per quotation
Supply	Made to measure; supply only or supply and installation
Availability	Confirmed with the factory for each quotation

Selection guide, not a technical certificate or confirmed order specification. Dimensions, finishes and availability are agreed in your quotation.

AMERICAN BASSWOOD VENETIAN BLINDS

Planning your specification

Options to discuss

- Painted or stained finishes
- Compatible routed or routless arrangements
- Selected rounded or square edge details
- Valance, tape and control options

Practical points

- Timber grain varies naturally
- Every configuration requires factory confirmation
- Colour matching requires approval of an actual sample

How it works

Listed slat options include nominal 35mm, 50mm and 63.5mm formats. Routed and routless arrangements, where available, change the way lift cords pass through or around the slats. We confirm the currently supported configuration and operating method for your dimensions.

Choosing the finish and details

If a close colour match is required, provide a physical sample or a recognised colour reference. Matching is assessed and quoted rather than assumed exact. The same approach applies to contract enquiries, where quantities, consistency and specification need to be agreed together.

Measuring, supply and installation

AdamsBlinds provides measuring as part of a supply and installation project, plus made-to-measure supply-only quotations. Send approximate dimensions, photographs and the number of blinds required to get started. We confirm the specification and final sizes before manufacture. Factory availability, order quantity and any discontinued options are checked for your quotation.

Ask about American Basswood Venetian Blinds

Send your postcode, approximate quantity, opening sizes and photographs. Tell us whether you need supply only or measuring and installation.
