PRODUCT SELECTION / WOVEN WOOD AND BAMBOO

Bamboo Cane Roll Up Blinds

A handcrafted roll-up blind made from natural bamboo reeds and a matching cane headrail.

Product illustration. The agreed specification and finish determine the supplied product.

Bamboo Cane is the most visibly rustic construction in the collection. Natural reeds are cut into slats and joined along the blind with cord. A bamboo cane forms the headrail, keeping the top detail closely related to the material below.

The reeds are not identical in diameter, so the slats and headrail vary from blind to blind. The appeal is that individual character. It is not the right starting point for a brief that requires every strip and edge to look perfectly uniform.

- Handcrafted natural character
- Matching cane headrail
- Traditional roll-up appearance

At a glance

Material	Natural bamboo reeds and cane
Format	Individual reed dimensions vary
Supply	Made to measure; supply only or supply and installation
Availability	Confirmed with the factory for each quotation

Selection guide, not a technical certificate or confirmed order specification. Dimensions, finishes and availability are agreed in your quotation.

BAMBOO CANE ROLL UP BLINDS

Planning your specification

Options to discuss

- Available natural bamboo appearance
- Assessed control and fixing details
- Made-to-measure dimensions subject to material tolerances

Practical points

- Reed sizes and finishes vary
- Uniform industrial tolerances are not appropriate
- Outdoor suitability must be confirmed separately

How it works

The traditional construction rolls up when raised. The fixing arrangement and current operating details are assessed for the intended location. Because the materials are irregular, exact tolerances and the appearance of the finished drop are considered before order.

Choosing the finish and details

Provide photographs of the opening and say whether the blind is decorative or will be operated frequently. We can then review the available material, control and fixing method. Its natural look should not be taken as evidence that it is suitable for unprotected exterior use.

Measuring, supply and installation

AdamsBlinds provides measuring as part of a supply and installation project, plus made-to-measure supply-only quotations. Send approximate dimensions, photographs and the number of blinds required to get started. We confirm the specification and final sizes before manufacture. Factory availability, order quantity and any discontinued options are checked for your quotation.

Ask about Bamboo Cane Roll Up Blinds
