PRODUCT SELECTION / DECORATIVE BLINDS

# Broad 90 Bamboo Blinds

A 90mm bamboo Venetian that makes the grain and broad slat proportions more visible.

*Product illustration. The agreed specification and finish determine the supplied product.*

Broad 90 Bamboo combines a wide slat with bamboo's distinctive surface. The larger profile shows more of the grain across each horizontal strip and gives the blind a different character from both fine bamboo weaves and standard wooden Venetians.

The material has natural variations in colour and behaviour. These are easier to notice across broad slats, so the range is best selected with a clear understanding of the bamboo appearance. A sample helps establish tone but cannot predict every grain mark.

- Broad bamboo grain display
- A distinctive natural material
- Substantial horizontal proportions

Selection guide, not a technical certificate or confirmed order specification. Dimensions, finishes and availability are agreed in your quotation.

BROAD 90 BAMBOO BLINDS

# Planning your specification

## Options to discuss

- Compatible bamboo finishes
- Coordinated trim
- Operating system assessed for the completed blind

## Practical points

- Natural movement and shade variation are expected
- The wide profile needs suitable clearance
- Controls and size limits require confirmation

## How it works

The 90mm format needs a suitable headrail and control for its size and weight. Clearance for slat rotation and the raised stack is assessed before quotation. We confirm the currently supported operating system rather than assuming it matches the narrower bamboo range.

## Choosing the finish and details

Provide the approximate opening dimensions and say whether the blind will be used daily or remain mostly lowered. That helps us review operation and access. Compatible finishes and visible trim are then agreed as a complete specification.

## Measuring, supply and installation

AdamsBlinds provides measuring as part of a supply and installation project, plus made-to-measure supply-only quotations. Send approximate dimensions, photographs and the number of blinds required to get started. We confirm the specification and final sizes before manufacture. Factory availability, order quantity and any discontinued options are checked for your quotation.

### Ask about Broad 90 Bamboo Blinds

Send your postcode, approximate quantity, opening sizes and photographs. Tell us whether you need supply only or measuring and installation.
