PRODUCT SELECTION / DECORATIVE BLINDS

Broad 90 Aluminium Blinds

A 90mm aluminium Venetian for a clean, broad horizontal treatment.

Product illustration. The agreed specification and finish determine the supplied product.

Broad 90 Aluminium uses a substantial metal slat profile to create a clear horizontal rhythm. It is suited to a design brief where the metal finish is part of the interior, whether the surrounding scheme is restrained or more industrial in character.

The collection includes selected plain, decorative and perforated finishes. Availability differs between finishes, and a perforated surface changes the light and screening behaviour. We review those differences before treating the choices as interchangeable.

- Broad metal slats
- A choice of surface effects
- Adjustable daylight direction

At a glance

Material	Aluminium
Format	90mm slats
Supply	Made to measure; supply only or supply and installation
Availability	Confirmed with the factory for each quotation

Selection guide, not a technical certificate or confirmed order specification. Dimensions, finishes and availability are agreed in your quotation.

BROAD 90 ALUMINIUM BLINDS

Planning your specification

Options to discuss

- Compatible plain or decorative finishes
- Selected perforated options
- Control and trim specified for the size

Practical points

- Perforations affect privacy and light transmission
- Finishes are not universally available in every configuration
- Wide slats require operating clearance

How it works

The 90mm slats require space to turn and a mechanism that suits the completed blind. The control, stack and top detail are specified together. On larger windows, access for fitting and any motor power arrangement should be considered early.

Choosing the finish and details

Look at the finish beside the frame and other metalwork. Small differences in sheen can be more obvious than differences in colour under strong daylight. We confirm the actual finish, dimensions and control after reviewing the project.

Measuring, supply and installation

AdamsBlinds provides measuring as part of a supply and installation project, plus made-to-measure supply-only quotations. Send approximate dimensions, photographs and the number of blinds required to get started. We confirm the specification and final sizes before manufacture. Factory availability, order quantity and any discontinued options are checked for your quotation.

Ask about Broad 90 Aluminium Blinds

Send your postcode, approximate quantity, opening sizes and photographs. Tell us whether you need supply only or measuring and installation.
