PRODUCT SELECTION / DECORATIVE BLINDS

Broad 90 Wood Blinds

A 90mm abachi Venetian for large windows, operated by crank or motor.

Product illustration. The agreed specification and finish determine the supplied product.

Broad 90 gives the window a more substantial horizontal line. The 90mm abachi slats are intended for openings where the wider profile can be appreciated, making the range worth considering for large glazed areas and spacious interiors.

The width of the slat changes both the view through the blind and the space needed around it. It can look more open when tilted, but the slats must have room to rotate freely. The raised stack also needs to be planned before the blind is positioned.

- A broad timber profile
- Designed around assisted operation
- Strong proportions for larger windows

At a glance

Material	Abachi wood
Format	90mm slats
Supply	Made to measure; supply only or supply and installation
Availability	Confirmed with the factory for each quotation

Selection guide, not a technical certificate or confirmed order specification. Dimensions, finishes and availability are agreed in your quotation.

BROAD 90 WOOD BLINDS

Planning your specification

Options to discuss

- Compatible wood and selected decorative finishes
- Crank operation
- Motor operation with controls specified

Practical points

- Manual lift-cord operation is not offered for this model
- Wide slats require adequate rotation space
- Motor power and access must be planned

How it works

This model is specified with crank or motor operation. Manual lift cords are not an option for this range. The drive, fixing and power arrangements are therefore part of the initial design, particularly for blinds that will be difficult to reach.

Choosing the finish and details

Choose a compatible wood finish and identify whether the blind will be used independently or alongside other units. We can then assess controls, installation access and the appearance of the headrail. The final dimensions are confirmed against the selected system.

Measuring, supply and installation

AdamsBlinds provides measuring as part of a supply and installation project, plus made-to-measure supply-only quotations. Send approximate dimensions, photographs and the number of blinds required to get started. We confirm the specification and final sizes before manufacture. Factory availability, order quantity and any discontinued options are checked for your quotation.

Ask about Broad 90 Wood Blinds

Send your postcode, approximate quantity, opening sizes and photographs. Tell us whether you need supply only or measuring and installation.
