PRODUCT SELECTION / VERTICAL BLINDS

Chevron Wide Vertical Blinds

Broad 150mm wooden vertical slats with a double-pointed profile.

Product illustration. The agreed specification and finish determine the supplied product.

Chevron Wide Vertical uses a substantial shaped timber slat to create a stronger architectural line. The 150mm profile has a double-pointed form, giving the blind a different depth and appearance from a standard flat vertical.

The slats are made from abachi wood and finished in compatible colours. Their width makes the profile more visible, particularly on larger glazing or as a visual divider. The natural grain and movement of the timber remain part of the product.

- Broad geometric profile
- Real timber construction
- A strong vertical rhythm

At a glance

Material	Shaped abachi wood
Format	150mm vertical slats
Supply	Made to measure; supply only or supply and installation
Availability	Confirmed with the factory for each quotation

Selection guide, not a technical certificate or confirmed order specification. Dimensions, finishes and availability are agreed in your quotation.

CHEVRON WIDE VERTICAL BLINDS

Planning your specification

Options to discuss

- Compatible wood or painted finishes
- Coordinated valance
- Assessed track and draw arrangement

Practical points

- Broad profiles need substantial rotation clearance
- Timber can show natural movement
- Stack space must suit the room layout

How it works

A broad shaped slat needs sufficient room to rotate. The track, stack position and control are therefore assessed against the whole space, not just the glass dimensions. A matching wood valance forms part of the described system where specified.

Choosing the finish and details

Provide photographs showing the surrounding walls, furniture and circulation route. We can consider how the blind looks both closed and stacked, then confirm the compatible finish and operating arrangement. Broad slats may not suit a shallow recess.

Measuring, supply and installation

AdamsBlinds provides measuring as part of a supply and installation project, plus made-to-measure supply-only quotations. Send approximate dimensions, photographs and the number of blinds required to get started. We confirm the specification and final sizes before manufacture. Factory availability, order quantity and any discontinued options are checked for your quotation.

Ask about Chevron Wide Vertical Blinds

Send your postcode, approximate quantity, opening sizes and photographs. Tell us whether you need supply only or measuring and installation.
