PRODUCT SELECTION / VERTICAL BLINDS

Decorated Aluminium Vertical Blinds

Decorative surfaces applied to aluminium vertical slats for a more individual interior.

Catalogue material and finish details; not a completed installation. The selected finish is confirmed in your quotation.

Decorated Aluminium Vertical uses applied surface effects on an 89mm metal slat. The finish choice extends beyond plain paint to selected textured, wood-like, stone-like and metallic appearances. These are decorative effects over aluminium, not a statement that the slat is made from those materials.

The vertical format spreads the pattern along the height of the window. That can give a different result from the same visual effect on a horizontal Venetian. Compare the pattern at the distance from which the blind will normally be seen.

- Decorative effects on a metal support
- A tall pattern format
- Adjustable slat angle and draw

At a glance

Material	Aluminium with an applied decorative finish
Format	89mm vertical slats
Supply	Made to measure; supply only or supply and installation
Availability	Confirmed with the factory for each quotation

Selection guide, not a technical certificate or confirmed order specification. Dimensions, finishes and availability are agreed in your quotation.

DECORATED ALUMINIUM VERTICAL BLINDS

Planning your specification

Options to discuss

- Compatible textured and printed surface effects
- Assessed track and draw layout
- Coordinated controls and optional top detail

Practical points

- Material effects do not change the aluminium substrate
- Pattern direction can influence the result
- Composition and project suitability vary by finish

How it works

The slats tilt and draw along an overhead track. Pattern direction, finish availability and the chosen control are checked as one specification. The slats must clear door handles and other obstructions through their full rotation.

Choosing the finish and details

Choose a small sample shortlist and tell us about the surrounding materials. If the design calls for a close match, supply a physical reference where possible. We confirm the surface, substrate, track and dimensions in the quotation.

Measuring, supply and installation

AdamsBlinds provides measuring as part of a supply and installation project, plus made-to-measure supply-only quotations. Send approximate dimensions, photographs and the number of blinds required to get started. We confirm the specification and final sizes before manufacture. Factory availability, order quantity and any discontinued options are checked for your quotation.

Ask about Decorated Aluminium Vertical Blinds

Send your postcode, approximate quantity, opening sizes and photographs. Tell us whether you need supply only or measuring and installation.
