PRODUCT SELECTION / VERTICAL BLINDS

# Embossed Leather Look Vertical Blinds

Synthetic leather-look and textured finishes on tall vertical slats.

*Product illustration. The agreed specification and finish determine the supplied product.*

Embossed Leather Look Vertical brings the surface character of a decorative covering to a side-drawing blind. Options include smooth, embossed, woven-effect and other textured appearances, allowing the vertical slats to relate to upholstery or feature materials in the room.

These finishes are synthetic and should not be confused with genuine leather. The supporting slat may be wood or aluminium, with the exact construction depending on the chosen option. We confirm that information with the finish rather than applying one material description to the whole collection.

- Textured vertical surfaces
- Several decorative appearances
- Construction confirmed by finish

## At a glance

| | |
|---|---|
| **Material** | Synthetic decorative covering on wood or aluminium |
| **Format** | 89mm vertical slats |
| **Supply** | Made to measure; supply only or supply and installation |
| **Availability** | Confirmed with the factory for each quotation |

Selection guide, not a technical certificate or confirmed order specification. Dimensions, finishes and availability are agreed in your quotation.

EMBOSSED LEATHER LOOK VERTICAL BLINDS

# Planning your specification

## Options to discuss

- Compatible embossed, woven-look or smooth finishes
- Supported core material
- Track and control layout matched to the opening

## Practical points

- Not natural leather
- Composition and performance vary by finish
- Tall slats need adequate rotation and stack space

## How it works

The 89mm slats tilt for daylight control and stack along their track. Surface direction and sheen can look different in this tall format from a small swatch or horizontal blind. Draw position and rotation clearance are assessed for the actual opening.

## Choosing the finish and details

If the blind is for a workplace or public interior, include any specific material requirements with the enquiry. We can check whether the chosen finish has suitable current evidence. For appearance, a physical sample is useful for comparing the texture.

## Measuring, supply and installation

AdamsBlinds provides measuring as part of a supply and installation project, plus made-to-measure supply-only quotations. Send approximate dimensions, photographs and the number of blinds required to get started. We confirm the specification and final sizes before manufacture. Factory availability, order quantity and any discontinued options are checked for your quotation.

### Ask about Embossed Leather Look Vertical Blinds

Send your postcode, approximate quantity, opening sizes and photographs. Tell us whether you need supply only or measuring and installation.
