PRODUCT SELECTION / DECORATIVE BLINDS

# Paper Pattern Venetian Blinds

Newspaper and graphic paper effects made into decorative Venetian blinds.

*Product illustration. The agreed specification and finish determine the supplied product.*

Paper Pattern turns the slat surface into a graphic feature. The collection includes newspaper-inspired coverings and paper finishes, creating a more expressive window treatment than a plain colour. It is best considered as part of the room's overall pattern rather than as a neutral background.

Different options use different supporting materials. Some are based on a printed covering; others use paper over timber. We confirm that construction and the selected design before quotation, including any change in layout that follows from the blind dimensions.

- Graphic surface character
- Horizontal slat interpretation of the design
- Working Venetian controls

## At a glance

| | |
|---|---|
| **Material** | Graphic covering or paper over a specified slat support |
| **Format** | 50mm, 70mm or 90mm; design-dependent |
| **Supply** | Made to measure; supply only or supply and installation |
| **Availability** | Confirmed with the factory for each quotation |

Selection guide, not a technical certificate or confirmed order specification. Dimensions, finishes and availability are agreed in your quotation.

PAPER PATTERN VENETIAN BLINDS

# Planning your specification

## Options to discuss

- Compatible newspaper and graphic finishes
- Supporting construction confirmed with the design
- Coordinated valance and ladder details

## Practical points

- Paper-based finishes need appropriate care
- The slat divisions interrupt a continuous image
- Design and material availability are checked before order

## How it works

The slats still provide tilt and lift control. Their horizontal divisions break up a graphic, which can be an attractive effect but should be understood when choosing a design. A close-up sample does not show the whole composition across a wide window.

## Choosing the finish and details

Tell us whether you want a subtle printed texture or an obvious graphic statement. We can check a selected design against the opening and confirm the visible trim. For commissioned imagery, use the separate Bespoke Picture range so artwork can be reviewed specifically.

## Measuring, supply and installation

AdamsBlinds provides measuring as part of a supply and installation project, plus made-to-measure supply-only quotations. Send approximate dimensions, photographs and the number of blinds required to get started. We confirm the specification and final sizes before manufacture. Factory availability, order quantity and any discontinued options are checked for your quotation.

### Ask about Paper Pattern Venetian Blinds

Send your postcode, approximate quantity, opening sizes and photographs. Tell us whether you need supply only or measuring and installation.
