PRODUCT SELECTION / VERTICAL BLINDS

Bespoke Picture Vertical Blinds

A commissioned image spread across made-to-measure vertical slats.

Product illustration. The agreed specification and finish determine the supplied product.

Bespoke Picture Vertical allows an image to cover a wide opening while retaining the movement of a vertical blind. It can be considered for a personal interior, a display area or a commercial design where a particular visual matters.

The picture is divided by the 89mm slats. When they turn, both the view and the image change; when they stack, the composition is gathered to one side. Fine lettering and important facial details therefore need to be placed carefully.

- A project-specific graphic
- Composition sized to the opening
- Working vertical blind movement

At a glance

Material	Image reproduction on a specified vertical slat
Format	89mm vertical format
Supply	Made to measure; supply only or supply and installation
Availability	Confirmed with the factory for each quotation

Selection guide, not a technical certificate or confirmed order specification. Dimensions, finishes and availability are agreed in your quotation.

BESPOKE PICTURE VERTICAL BLINDS

Planning your specification

Options to discuss

- Customer artwork subject to suitability and rights
- Layout and crop review
- Track and draw direction

Practical points

- Slat divisions interrupt the picture
- Low-resolution images may not reproduce well
- A feasible layout must be approved before manufacture

How it works

Artwork quality and the actual opening proportions are reviewed before production. The supporting construction and reproduction method are confirmed for the chosen design. You need the necessary rights to use the image, and any proposed layout must be approved before ordering.

Choosing the finish and details

Send the original artwork file if possible and tell us which part must remain prominent. Include the intended viewing distance and draw direction. We can then judge whether the image works in a vertical format or would be clearer on another product.

Measuring, supply and installation

AdamsBlinds provides measuring as part of a supply and installation project, plus made-to-measure supply-only quotations. Send approximate dimensions, photographs and the number of blinds required to get started. We confirm the specification and final sizes before manufacture. Factory availability, order quantity and any discontinued options are checked for your quotation.

Ask about Bespoke Picture Vertical Blinds

Send your postcode, approximate quantity, opening sizes and photographs. Tell us whether you need supply only or measuring and installation.
