PRODUCT SELECTION / VERTICAL BLINDS

Sculpted Acrylic Vertical Blinds

Formed acrylic vertical slats with wave, bubble and other textured profiles.

Product illustration. The agreed specification and finish determine the supplied product.

Sculpted Acrylic adds a formed surface to a wide vertical blind. The 150mm slats can use wave, bubble, flat or selected opal effects, producing a different relationship with light from a simple smooth louvre.

The decorative shape is part of the acrylic itself. Its effect changes with viewing angle and background light, making the range useful where a more expressive screen is wanted. It should not be selected solely from a colour swatch.

- A sculpted decorative surface
- Several profile effects
- Side-drawing vertical operation

At a glance

Material	Formed acrylic / methacrylate
Format	150mm vertical format
Supply	Made to measure; supply only or supply and installation
Availability	Confirmed with the factory for each quotation

Selection guide, not a technical certificate or confirmed order specification. Dimensions, finishes and availability are agreed in your quotation.

SCULPTED ACRYLIC VERTICAL BLINDS

Planning your specification

Options to discuss

- Compatible wave, bubble, flat or opal designs
- Available translucent or coloured finishes
- Track and controls specified for the opening

Practical points

- Profile appearance varies with lighting
- Not a blanket privacy solution
- Broad slats need adequate rotation space

How it works

The slats rotate and stack on an overhead track. Their broad profile and formed surface need suitable clearance from glazing and other objects. We check the actual design and current dimensions before confirming a fitting arrangement.

Choosing the finish and details

Compare a profile or assembled sample where available, particularly if you are choosing between a clear and a diffusing effect. Tell us about privacy needs and the location of nearby lighting so the proposed finish can be judged in context.

Measuring, supply and installation

AdamsBlinds provides measuring as part of a supply and installation project, plus made-to-measure supply-only quotations. Send approximate dimensions, photographs and the number of blinds required to get started. We confirm the specification and final sizes before manufacture. Factory availability, order quantity and any discontinued options are checked for your quotation.

Ask about Sculpted Acrylic Vertical Blinds

Send your postcode, approximate quantity, opening sizes and photographs. Tell us whether you need supply only or measuring and installation.
