PRODUCT SELECTION / DECORATIVE BLINDS

Smooth Leather Look Blinds

A fine, unstitched synthetic covering bonded to aluminium Venetian slats.

Product illustration. The agreed specification and finish determine the supplied product.

Smooth Leather Look offers a quieter surface detail than the stitched range. A thin synthetic covering is bonded to aluminium, leaving an uninterrupted appearance across the slat and no decorative seam around the edges. It is a practical design option where texture is wanted without prominent stitching.

The collection is based on 50mm, 70mm and 90mm slats in selected matt finishes. The supporting aluminium and applied surface are specified together. The chosen finish is checked for availability and suitability in the intended dimensions.

- Unstitched surface detail
- Matt leather-like appearance
- Aluminium supporting slat

At a glance

Material	Bonded synthetic covering on aluminium
Format	50mm, 70mm or 90mm
Supply	Made to measure; supply only or supply and installation
Availability	Confirmed with the factory for each quotation

Selection guide, not a technical certificate or confirmed order specification. Dimensions, finishes and availability are agreed in your quotation.

SMOOTH LEATHER LOOK BLINDS

Planning your specification

Options to discuss

- Compatible matt finishes
- Coordinated ladder and trim
- Operating system confirmed for the size

Practical points

- Not genuine leather
- The covering is bonded rather than stitched
- Finish compatibility is confirmed per order

How it works

The blind retains lift and tilt operation, with the headrail and visible controls coordinated to the design. The comparatively fine covering changes the appearance of the aluminium beneath, but it should not be represented as solid leather or wood.

Choosing the finish and details

Compare the matt finish in the lighting used in the room. A sample beside the window frame and upholstery is often enough to narrow the choice. We then confirm controls, trim and any dimensional restrictions in the quotation.

Measuring, supply and installation

AdamsBlinds provides measuring as part of a supply and installation project, plus made-to-measure supply-only quotations. Send approximate dimensions, photographs and the number of blinds required to get started. We confirm the specification and final sizes before manufacture. Factory availability, order quantity and any discontinued options are checked for your quotation.
