PRODUCT SELECTION / VERTICAL BLINDS

Smooth Leather Look Vertical Blinds

A fine synthetic covering over aluminium vertical slats, with an unstitched surface.

Product illustration. The agreed specification and finish determine the supplied product.

Smooth Leather Look Vertical gives a side-drawing blind a matt, leather-like appearance without edge stitching. The synthetic surface is bonded to an aluminium slat, creating a quieter detail than the stitched version.

The 89mm slats form a regular screen across the window. Their appearance is governed by the selected finish and how the light falls along the surface. A small sample helps establish tone, but the whole vertical arrangement should also be considered.

- Unstitched matt appearance
- Aluminium supporting slat
- Tilting and sideways movement

At a glance

Material	Bonded synthetic covering on aluminium
Format	89mm vertical slats
Supply	Made to measure; supply only or supply and installation
Availability	Confirmed with the factory for each quotation

Selection guide, not a technical certificate or confirmed order specification. Dimensions, finishes and availability are agreed in your quotation.

SMOOTH LEATHER LOOK VERTICAL BLINDS

Planning your specification

Options to discuss

- Compatible synthetic surface colours
- Track and draw layout
- Optional top detail where suitable

Practical points

- Not genuine leather
- Top finishing details must be specified
- Rotation and stack space are required

How it works

The track controls tilt and sideways movement. The draw direction, stack and control position need to fit the way the window or door is used. Any valance or decorative top treatment is specified separately rather than assumed to be included.

Choosing the finish and details

Provide approximate dimensions and photographs of the opening. We can review finish choices alongside the practical layout and confirm the current material and track combination. The resulting quotation identifies the complete product supplied.

Measuring, supply and installation

AdamsBlinds provides measuring as part of a supply and installation project, plus made-to-measure supply-only quotations. Send approximate dimensions, photographs and the number of blinds required to get started. We confirm the specification and final sizes before manufacture. Factory availability, order quantity and any discontinued options are checked for your quotation.

Ask about Smooth Leather Look Vertical Blinds
