PRODUCT SELECTION / WOVEN WOOD AND BAMBOO

Traditional Roll Up Woven Blinds

A natural woven roll-up blind with a timber headrail and simple top detail.

Product illustration. The agreed specification and finish determine the supplied product.

Traditional Roll Up Woven pairs a natural woven surface with a wooden headrail. The material rolls as the blind is lifted, creating a straightforward appearance that can suit interiors where exposed timber and texture are already part of the design.

The range differs from a conventional roller on a large aluminium tube. Its construction and fixing details are assessed for the selected weave and opening. The raised roll remains part of the visible arrangement.

- Simple timber headrail
- Natural material character
- Distinctive roll-up appearance

At a glance

Material	Woven wood or bamboo with a timber headrail
Format	Weave-dependent roll-up construction
Supply	Made to measure; supply only or supply and installation
Availability	Confirmed with the factory for each quotation

Selection guide, not a technical certificate or confirmed order specification. Dimensions, finishes and availability are agreed in your quotation.

TRADITIONAL ROLL UP WOVEN BLINDS

Planning your specification

Options to discuss

- Compatible woven patterns
- Supported top and edge detailing
- Control side and fixing arrangement

Practical points

- The roll needs clear space when raised
- Natural material can vary in alignment and shade
- Operating details are confirmed for each project

How it works

Available weaves vary in strip width, density and flexibility. Those differences affect how the blind rolls and the space it needs when raised. We review the finished drop, nearby handles and the window-opening direction before confirming the position.

Choosing the finish and details

Use a physical sample with light behind it to judge the weave. Any edging, top turn and control detail must be compatible with the material. We confirm the current operating arrangement and supplied fixings in the quotation.

Measuring, supply and installation

AdamsBlinds provides measuring as part of a supply and installation project, plus made-to-measure supply-only quotations. Send approximate dimensions, photographs and the number of blinds required to get started. We confirm the specification and final sizes before manufacture. Factory availability, order quantity and any discontinued options are checked for your quotation.

Ask about Traditional Roll Up Woven Blinds
