FAUX-WOOD BLINDS

Faux-Wood Blinds

Compare 20 faux-wood blind finishes, including smooth, Fine Grain, wood-look and white gloss options. Request samples and an AdamsBlinds project quote.

- 20 current finishes
- Smooth, textured, wood-look and gloss options
- Finish-specific slat widths shown on each page

The Fauxwood collection brings together 20 finishes, with plain colours, Fine Grain textures, wood-look options and white gloss Aura. It gives you several ways to change the character of the window without choosing a real-wood blind. Start with the surface you prefer, then narrow the colour.

Slat-width availability varies by finish. Most are listed in 35 mm and 50 mm, but Aura, Abyss, Chroma, Arctic Oak, Lunar Oak and Scandi Oak are listed in 50 mm only. Each finish page shows the relevant options, so you do not have to assume that every colour shares the same specification.

Options to discuss

- Available control and finishing combinations confirmed for the chosen product

Before you order

- Do not assume every faux-wood finish is available in both widths or with every control system.
