- Three current warm wood-grain finishes
- 50 mm slats
- Contour valance

Soft Grain brings warm wood-grain character to the window. The current range contains Narra Oak, Tuscan Oak and Fired Walnut, each listed with 50 mm slats and a contour valance. It is a useful place to start when the room's palette is led by timber furniture, earthy colours or tactile fabrics.

The finishes move from warmer oak-toned directions to the deeper chocolate appearance of Fired Walnut. Rather than choosing by a wood name, compare the actual colour and surface with the materials already in your home. The surrounding floor, furniture and lighting will shape the result.

Options to discuss

- Finishing details and operation confirmed for the chosen specification

Before you order

- Compare a physical sample with the timber, flooring and textiles in your room before confirming the finish.

Finish palette

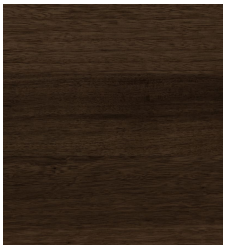

Keep the range, colour name and reference together in your enquiry. Screen and print colours are a guide; use a physical sample for the final decision.
